Enterprise and Employability Challenge

LEAF Cymru
Plan a food festival

Available for assessment from September 2020

Plan a Food Festival

PURPOSE

The purpose of the Enterprise and Employability Challenge is to develop learners' skills, whilst providing opportunities for learners to develop enterprising skills and attributes and enhance employability. During the Enterprise and Employability Challenge learners will explicitly develop skills in **Digital Literacy, Creativity and Innovation** and **Personal Effectiveness** and apply them in an appropriate manner.

BRIEF

Deciding on your future can be a daunting aspect. The world of work is extremely competitive, so it is vital that you choose a career pathway that utilises your strengths. You need to consider what you really want to achieve in a career without being influenced by others. When it comes to identifying the right pathway to a career, there is much preparation to do and many decisions to be made. The job market can be a competitive place and you need to stand out from other candidates. In preparation to apply and secure a job, you will need to gain a clear understanding of what is involved and know how to promote yourself so that you impress potential employers. You will learn the importance of networking and the power of social media when it comes to building a professional profile.

Experiencing an **innovation venture** provides an opportunity to develop and demonstrate a wide range of skills, qualities and attributes. This Challenge enables you to put forward a sustainable Innovation Proposal for a **food festival** or similar event (such as a community meal) in which locally produced food is both an ingredient and a talking point. **LEAF** (Linking Environment and Farming) is a charity whose aim is to educate young people about food and farming in a sustainable countryside. We give people first-hand experience of the food chain so that they can make informed choices about food.

You will need to research what food is available locally and talk to your target group about their needs. You will keep a record of how you will plan the event, source the ingredients and tell the story of local food from farm to fork and evaluate it.

You will need to identify, reflect on and develop the skills, attributes and experiences necessary for your chosen destination. You will also need to consider additional factors such as the job market, recruitment procedures, your lifestyle expectations and the part played by managing personal finances in pursuit of your chosen destination.

By creating a digital **Destination Passport**, you will be able to gather and showcase the skills, attributes, experiences and qualifications higher education and employers are looking for. By focusing on your future ambitions, you can tailor the Destination Passport to match your career aspirations.
