I would like to avoid another war like WW1.				
The Treaty of Versailles was too harsh.				
Hitler was fair to want the Polish Corridor back.				
All German speaking people should be united in Germany, Poland and the Sudetenland.				
Hitler should be admired for curing unemployment.				
Britain is not ready for war. She has only just begun rearming and can't defend herself.				
We should get on with Hitler because he is a fascist dictator.				
We need a buffer between ourselves and Communist Russia.
