

If the world were a village of 100 people...

What would it look like?

# Diversity

- Proportions of people who are different from each other

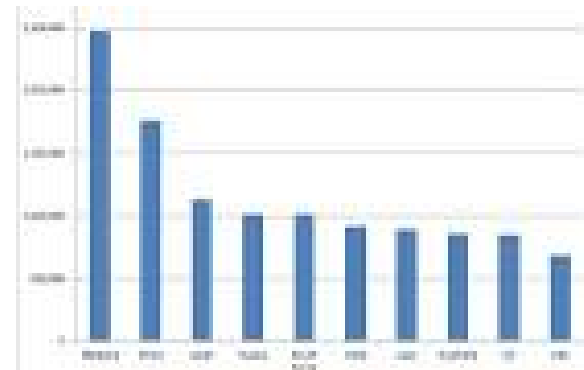

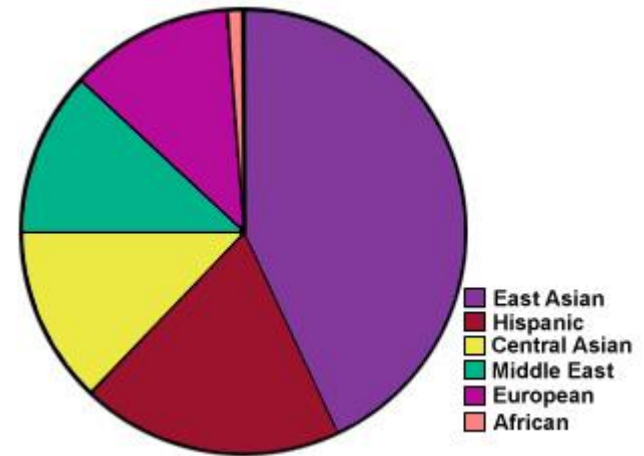

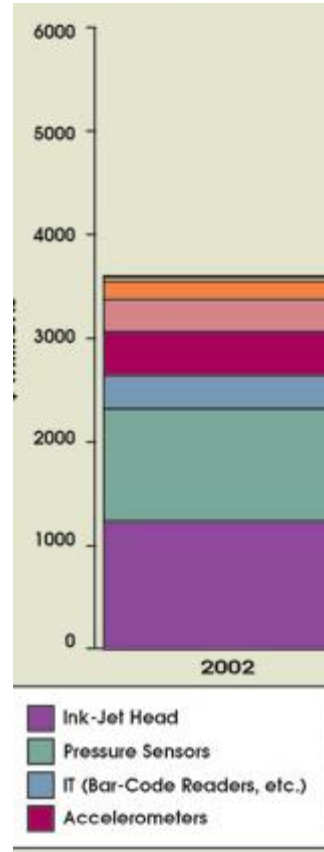

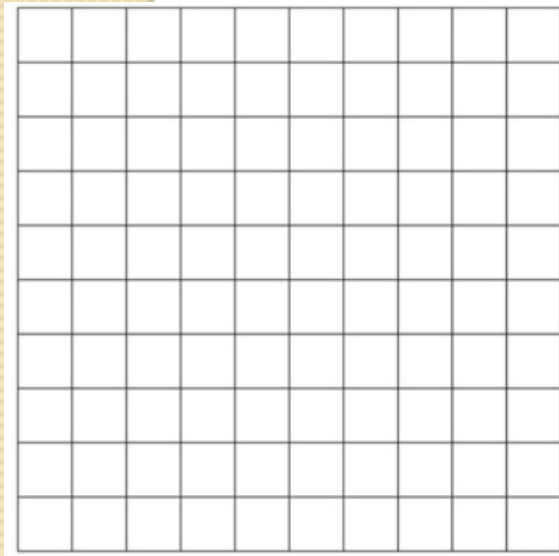

# If the world were a village of 100 people...

- There would be many differences between people
  - Rich/ poor
  - Nationalities
  - Food supply
  - Access to water
  - Education
  - Luxury items

# Showing diversity

- Data presentation – graphs..
- But which type?

# Task..

- In pairs choose 3 sets of data about our global village.
- Discuss which is the best way to show this data – which graph will you use and why?
- Draw the 3 graphs to show global diversity
